

ABSTRACT OF THE DISCLOSURE

A sports team necklace has a necklace string with beads directly molded thereto. The beads include sports projectile shaped beads. In one embodiment, a majority of beads are of a smaller size and one or more is larger and can be a pendant. In another embodiment, colored groups of beads are arranged sequentially, the colored groups representing team colors. In another embodiment smaller beads display alternating groups of beads, each a different team color and a pendant carries a team color or colors.
